

Transfer address book from Lotus Notes/Microsoft Outlook to Blackberry Device

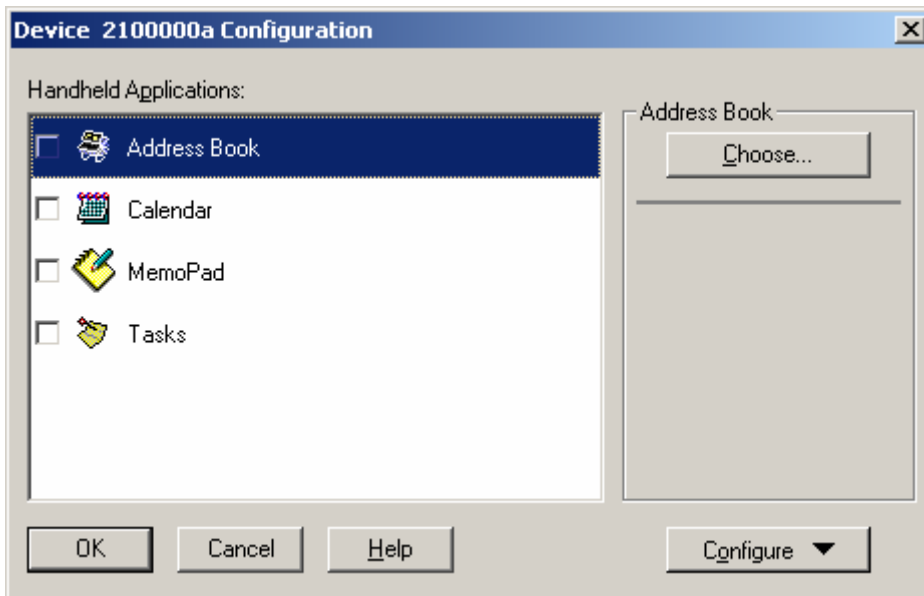

1. Open the BlackBerry Desktop Manager and double-click **Synchronize**.

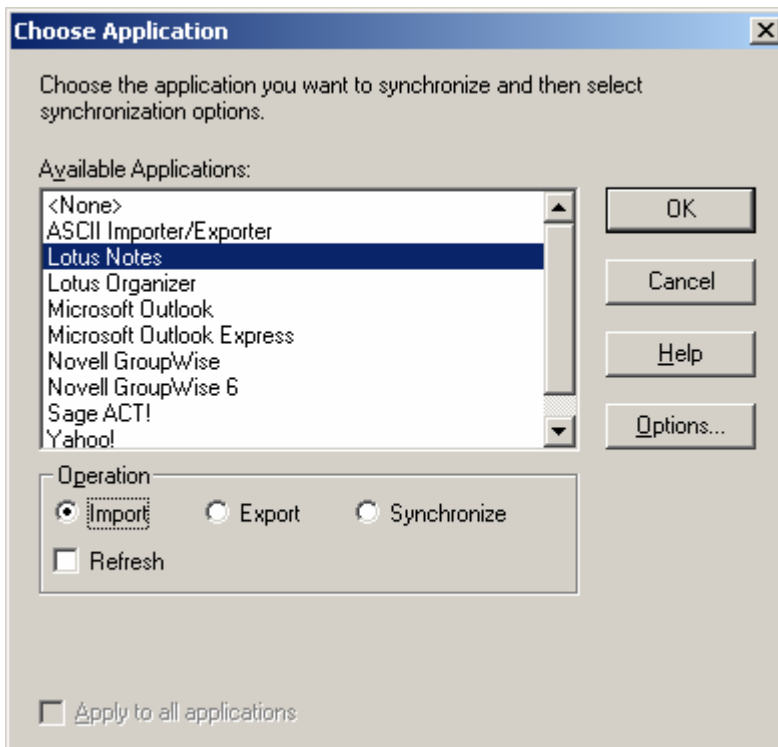

2. Click on 'Configure synch' under **Configuration** tab.

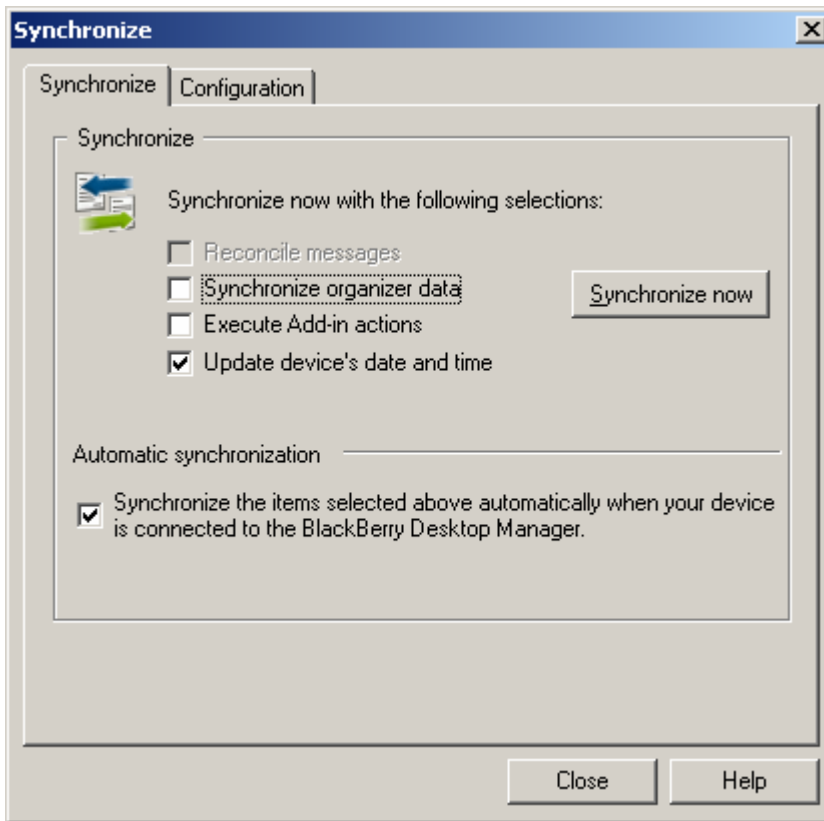

3. Make sure **Address Book** is selected in the Handheld Configuration window.

4. If Address Book is not selected, click **Choose**. The Choose Application window appears.

5. In the Choose Application window, select the type of application from which you want to synchronize address book.
6. In the Operation section, select one of Import, Export or Synchronize.
7. Click **OK** twice to return to the 'Synchronize' window.

8. To add the contacts, Select '**Synchronize organizer data**' and click **Synchronize now**.
9. When the Confirm Address Book Changes dialog box appears, click **Accept** to apply the changes.
